

Grease Pumps

Air-Operated Piston Pumps

Fire-Ball™ 50:1

Typical Application

High-pressure grease dispense

Features and Benefits

- 1 Non-corrosive air motor design (metal parts made of SST, aluminum and chrome) for long life
- 2 No metal-to-metal contact provides longer pump life and withstands harsh environments
- 3 Double-acting pump provides smooth fluid flow
- 4 Few moving parts translates into low maintenance and low cost of ownership
- 5 Robust grease inlet cage withstands the most abusive handling

Typical Fluids Handled

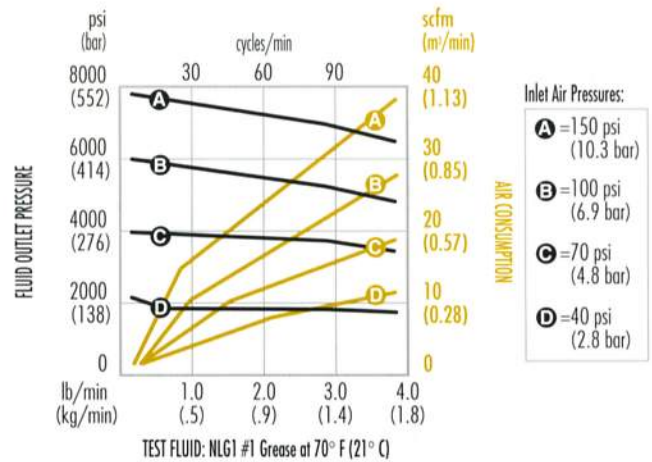

- NLGI #00 Lubricating Grease
- NLGI #0 Lubricating Grease
- NLGI #1 Lubricating Grease
- NLGI #2 Lubricating Grease

Fire-Ball 50:1

Technical Specifications Pump Performance

Max. fluid pressure	8400 psi (580 bar)
Effective air motor diameter	.3 in.
Operating range	40-180 psi (2.8-12.5 bar)
Max. continuous duty flow rate	1.82 lbs./min (.83kg/min.)
Approx. air consumption @100 psi (7 bar)	22.8 cfm
Air inlet	3/8 npt (f)
Material outlet	.1/4 npt (f)
Material inlet	slotted
Wetted parts	CS, Delrin, Buna-N, Polyurethane
Service manual	308883
